Hello everyone!

Hopefully, you all enjoyed the VikingRace! First, I will introduce myself, I am Helga Drost, 15 years old and I participate for the fourth time on the VikingRace. This year I skate in the category girls 14 years for Gewest Fryslan. I live in Akkrum, 15 kilometres from Heerenveen. The last three times I was number 3 in the overall ranking and this year I am aiming for the 1st place.

I started speedskating when I was five years old, first on 'houtjes' (wooden skates) by the youth skating group in Thialf. Thereafter I skated on 'lage noren' (low skates). After 3 years I was allowed to train on the 'big' 400 metres ring and I switched to 'klapschaatsen'. In my third year on the 400m ring, when I was pupil C (11 years) I started to skate better and faster. My trainer was Sjoerd de Boer. He is still my trainer on Saturdays. I am a member of the Frisian iceskating selection for two years now and also I am a member of the skating association STD from Sint Nicolaasga. During summer I participate in sailing competitions. Last summer I won the 'Sneekweek' in the category Flits A. The Sneekweek is a bit the same as the VikingRace. It is an international competition with a lot of fun and a fantastic end party. I am going to high school, OSG Sevenwolden in Heerenveen, since I have to train five or six times a week. I have received a special sport status of NOC-NSF, which makes it more easy to get a day off from school. I also can adjust my school schedule to my trainings schedule.

The VikingRace is every year a lot of fun and an exciting tournament. There are not a lot of international tournaments for young speedskaters and the VikingRace is very special therefore. Every year we are also host for a couple of skaters, which is an enjoyable way to meet other speedskater fans from other countries. On the first day I had to skate a 500m and a 1000m. The 500m went very well and I achieved the first place. The 1000m not that good and unfortunately I was 4th. Luckily I am still on the 1st place in the overall ranking, although it is not a big difference with the number 2. On the second day I had to skate a 500m and a 1500m. On the 500m I skated again very well and I was number 1 again. With a nice difference between me and the number 2 I started the 1500m. This was really hard. On the 1500m I reached the 3rd place, but in the overall ranking I achieved the 1st place. Tonight there is the price ceremony and the Vikingparty!

Ireen Wust, who won five medals on the Olympic Wintergames in Sotsji, the most successful Dutch Olympic sporter of all times, is my idol.

I hope you had an amazing weekend here in Heerenveen and hopefully we see you next year. I want to thank the organization committee as well for his great tournament!

Greetings and goodbye,

Helga

My name is Tjerk de Boer.

My hobbies are short track and long distance skating. I also like cycling. I have been ice skating since I was five years old. And when I was seven, I also started going to short track training. This is my second Viking Race. The last one was three years ago, because normally the Viking Race is in the same time period as the European Championship Short track. When that happens I choose to go to those matches. During the Viking Race many people skate fast times. And that might be my main goal for this weekend; make sure I race fast times. The Viking Race is always at the end of the season. This is nice time to have your peak and be at your best. For me there is another important match after the Viking race; the European Short track Championship. That will be in two weeks time. So after this event I will be able to get back on track on training for that event and be ready and fit in two weeks.

For me Short track is the main sport. I also train more regularly for this sport than for long distance ice skating. Normally I train for long distance once a week. I think Jorien ter Mors is a good example of someone that shows that training hard for short track makes you able to perform well at long distance ice skating too.

My favourite inspirational people are Shani Davis, Jorrit Bergsma en Victor Ahn.

When did you start ice skating? At school. We went school ice skating in Leeuwarden at the ice rink.

Why did you choose ice skating/short track as your sport? Because I thought it would be nice.

What is the best thing about ice skating/short track?

The speed and the new things you learn and the techniques you get to practice.

Are you able to combine your sports with your school activities? And how many hours do you spend training?

Yes, I have a loot status. This makes it possible for me to take hours of and use them for training and matches.

I train about 18 hours a week.

What are your personal records? 38.67 1.16.17 and 1.56.60

Why is the Viking Race so special for you?

The good, fast ice. Also the fact that the European skating top is present and the special atmosphere during the event.

How are you doing so far?

Up until now things are going well. In short track I am in the top three of Europe.

And on the long track my times are good as well.

What other hobbies do you have? I like watching films and when I have time off I help my dad at the farm.

What are your dreams for the future? I would like to go to Pyonjang in four years time.
